SOURCE**

## HANG-TYPE SWEEPERS

MODEL MRS78  
(Chain and Shocks not included)

These are superpowered, permanent magnets for the removal of sharp iron objects from roads, parking areas, loading docks, runways and other important traffic areas.

Our hang-type magnetic sweepers greatly reduce the possibility of costly dangerous flat tires and injuries caused by nails, scrap iron particles, welding remnants, wire, staples, tacks and metal shavings. Simply hang a magnetic sweeper from your forklift or vehicle bumper and "sweep" all contaminated areas. Wipe the face of the magnet with a glove or heavy shop towel to dispose of unwanted ferrous material.

Although the magnetic road sweeper will lift a 3.5" long 16-penny nail from 5" off the ground, the recommended sweeping height is from 2" to 4" depending on the terrain. Two eyebolts are installed on each magnet for suspending.

- Permanent magnetism guaranteed
- 24" model picks up 11 lbs. of 8-penny nails from 2" high, about 1,000 pcs.
- All models are 1.75" high by 5" deep
- Available in any width, from 18" to 96"

Maximum recommended operating speed: 5 mph. Recommended sweeping height: 2" - 4"

MODEL MRS48  
(Hanging bar not included)

PART NO.	MAGNETIC SURFACE AREA	SWEEPING WIDTH	APPROX. SHIPPING WT.
MRS18	60 Sq. In.	18 In.	11.5 Lbs.
MRS24	120 Sq. In.	24 In.	23 Lbs.
MRS48	240 Sq. In.	48 In.	50 Lbs.
MRS78	390 Sq. In.	78 In.	85 Lbs.
MRS84	570 Sq. In.	84 In.	110 Lbs.
MRS96	780 Sq. In.	96 In.	240 Lbs.

## PUSH-TYPE SWEEPERS

Our heavy-duty MFSM24R sweeper (item A) features a quick load release lever. To unload, push the sweeper to the desired dumping area (i.e. a piece of cardboard) and pull the lever. As the magnet rises, collected material is released from the collector plate.

- Permanent magnetism guaranteed
- Quick load release lever
- 24" model w/release picks up 6 lbs. of 8-penny nails, about 600 pcs.
- 1.75" high by 5" deep (does not include wheel dimensions)

**HEAVY DUTY SWEEPERS (items B, C and D)** These extra heavy-duty sweepers are designed for long wear and durability. Back-mounted wheels allow for easy access to corners and protect wheels from debris. Ideal for construction companies or rental shops!

- Permanent magnetism guaranteed
- Quick load release lever
- Heavy-duty, durable construction
- Designed for extended use over rough terrain, even in water!
- 24" model w/release picks up 10 lbs. of 8-pennynails, about 900 pcs.
- All models are 4" high by 16" deep (does not include wheel dimensions)

The MFSM models (items E, F and G) are excellent values. Collect large quantities of dangerous scrap metal or scattered ferrous metal items with ease. Clear collected debris from sweeper with work gloves or a heavy shop towel.

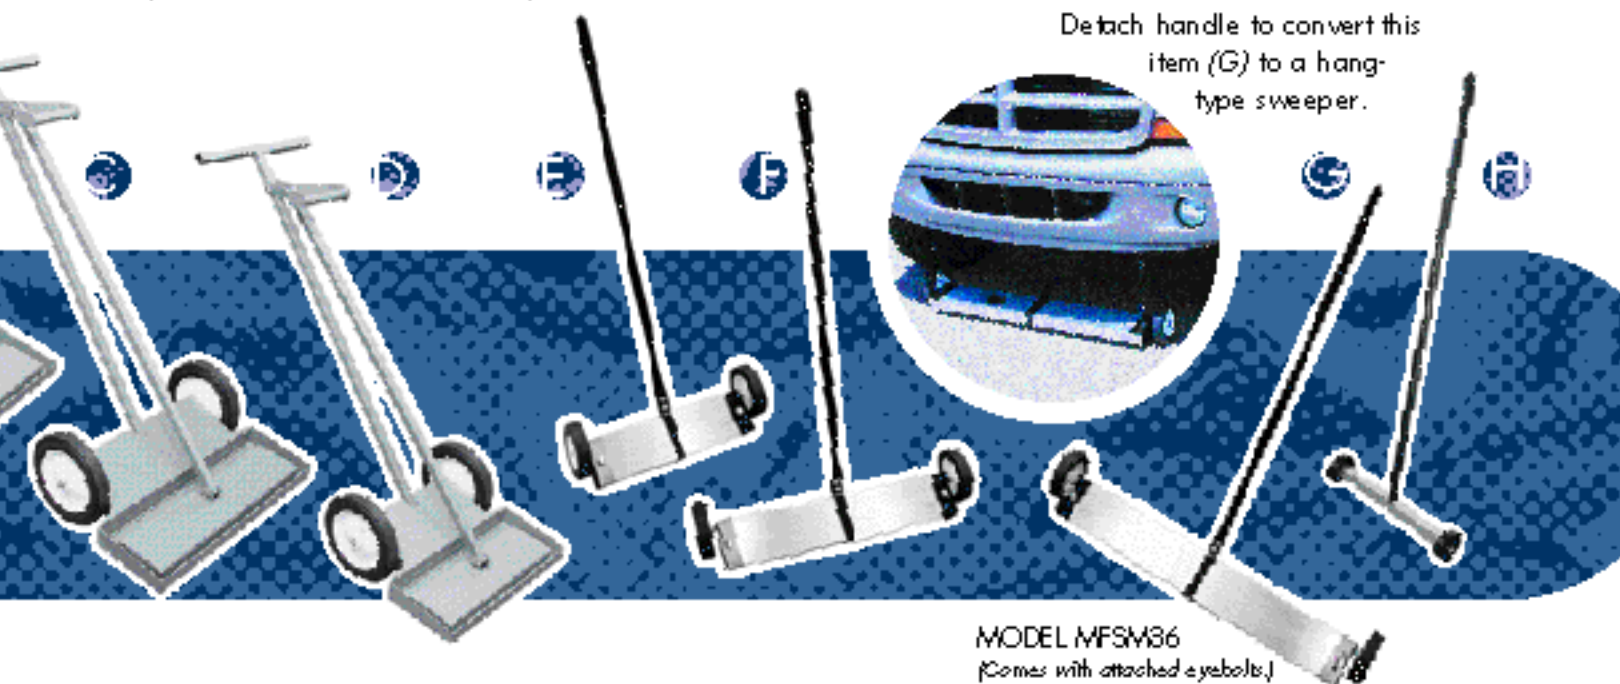

- Permanent magnetism guaranteed
- Light aluminum housing
- Easy to operate over most terrain
- 36" model converts to a hang-type sweeper. (see item G below)
- 24" model picks up 7.5 lbs. of 8-penny nails, about 680 pcs.
- All models are 1.75" high by 5" deep (does not include wheel dimensions)

The **MAGNETIC MINI SWEEPER (item H)** Pick up nails, screws, paper clips and any other ferrous metal items to keep work areas dean of dangerous ferrous metal debris. Clear collected debris with work gloves or a heavy shop towel.

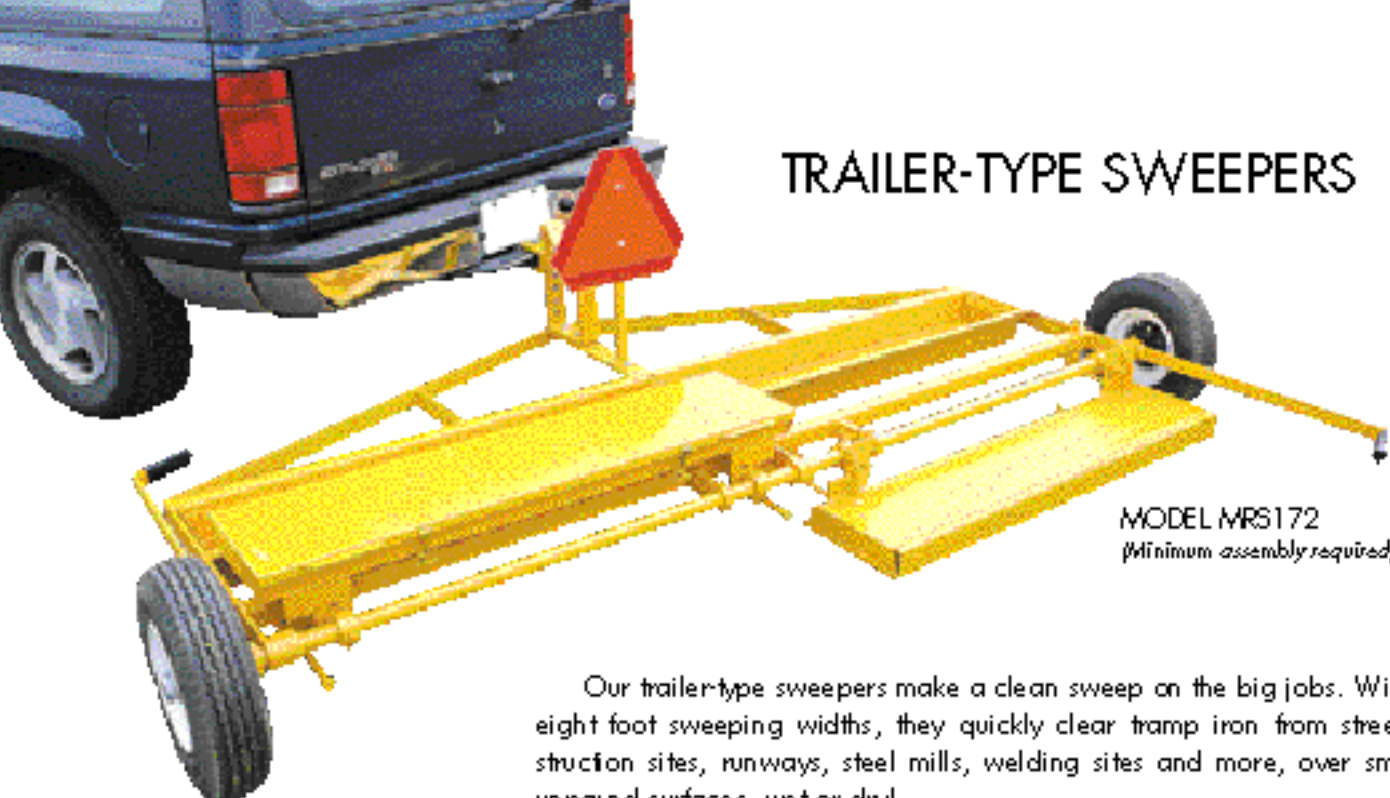

- Permanent magnetism guaranteed
- Light aluminum housing
- Excellent for home, shop or office
- Lightweight and versatile

ITEM	PART NO.	SWEEPING WIDTH	OVERALL WIDTH	APPROX. SHIPPING WT.
A.	MFSM24R	24 In.	30.25 In.	41 Lbs.
B.	MFSHD36	36 In.	38 In.	89 Lbs.
C.	MFSHD24	24 In.	26.25 In.	69 Lbs.
D.	MFSHD18	18 In.	20.25 In.	60 Lbs.
E.	MFSM12	12 In.	16.5 In.	17 Lbs.
F.	MFSM24	24 In.	28.5 In.	27 Lbs.
G.	MFSM36	36 In.	40.5 In.	41 Lbs.
H.	07263	14.5 In.	17 In.	3 Lbs.

(All models listed above can be shipped by ground service.)

## TRAILER-TYPE SWEEPERS

MODEL MRS172  
(Minimum assembly required)

Our trailer-type sweepers make a clean sweep on the big jobs. With six or eight foot sweeping widths, they quickly clear tramp iron from streets, construction sites, runways, steel mills, welding sites and more, over smooth or unpaved surfaces, wet or dry!

Like the smaller push-type and hang-type models, these big pull-type sweepers save time and maintenance costs by keeping work areas free of tramp metal debris. The heavy .375" x 2" steel frame with adjustable hitch withstands the roughest conditions! They are designed to operate at road speeds up to 50 mph between jobs, and up to 10 mph during sweeping. Each sweeper has two large, heavy-duty magnets which have 90 lbs. pull each, and feature permanent magnetism with a lifetime warranty. Discharging collected metal is easy too. Simply pull the lever, and the load is released from the stainless steel collecting plate into the carrying pans.

The Magnet Source offers one of the largest selections of magnets and magnetic material in the U.S.A. We have over fifteen million magnets in stock. Our selection includes industrial devices, round bases, separators, flexible sheet, flexible strip, inventory labeling, inkjetprintable sheet, flexible sheet with adhesive, colored or plain vinyl and bulk ceramic, alnico and neodymium magnets. We also have a large selection of packaged retail items available for hardware, industrial, craft, flexible, toy and education. With a detailed drawing we can custom manufacture to your specifications. Visit our web site at <http://www.magnetsource.com> to view many of our products and find out more about our capabilities. Give one of our knowledgeable customer service representatives a call today - toll free: 1.888.293.9399, local: 303.688.3966 or email us at [magnet@magnetsource.com](mailto:magnet@magnetsource.com).
